BUTTONS

Clinch Back

This Back type can be used in the same die as any of the other Back types. Tufting with prongs is fast and easy requiring no special skills. The prongs are secured by simply bending them 90° after insertion.

Tack Back

To be used with your own tack or nail. These sets consist of a collet (back) with a hole to fit your requirements, a paperboard wad to hold the nail securely in the button and a standard shell for the size ordered. Collet is placed in the bottom die, your nail is dropped into the hole, covered with the wad and the shell is then applied normally.
