Upholstery Silicone Spray

This thick viscosity, heavy duty silicone is specifically formulated to provide superior all purpose lubrication and protection without the use of ozone depleting chlorinated solvents.

- 1205012A (1-11)
(12+)

3M Scotch-Gard Fabric Protector

Repels watery and oily liquids. Spills blot up before turning into stains. Works well on all colorfast upholstery fabrics. Does not affect hand, color, or character of fabric. One 10 oz. aerosol can protect one oversized sofa. Provides added value your customers will really appreciate. Repels water and spills, versatile protection for clothing and fabric items.

(12+)

3M 76 High Tack Adhesive

Strong, one-surface bonds, high temperature resistance, nonmisting, precise spray control, variable width spray pattern, does not cavitate expanded polystyrene foam.

A unique quick-tacking adhesive with fast strength buildup. Designed to effectively bond hard-to-hold materials such as polyethylene and polypropylene. Also bonds ABR rubber, fabric, felt, cardboard, cord, foil, many plastics, etc. to themselves and to wood, metal, glass and other surfaces. Will not activate beadboard or styrofoam.

- 1205001A (1-11)
(12+)

3M Super 77 Spray Adhesive

High coverage, versatile - securely bonds most lightweight materials, low soak-in for long lasting bonds, fast, aggressive tack, long bonding range, meets performance requirements of MMM-A-1058A.

The original, industrial-grade aerosol adhesive - now better than ever. Extremely versatile, securely bonds most lightweight materials including metal foil, plastic films, polystyrene foam, flexible foam, fiberglass insulation, felt, cork, cardboard, etc. Not recommended for use on vinyl materials or automotive headliners.
