SHORTAGES AND DAMAGE: All claims or shortages must be made immediately on receipt of the merchandise.

Prices Subject To Change Without Notice

The constant fluctuation of steel, oil and chemical prices has made it impossible for us to hold firm prices in our catalog. The prices listed are accurate as of the date of this printing.

When you place your order, **please call our Toll Free Customer Service Number at 1 (800) 235-0888 for current pricing.** Thank you very much for your understanding on this matter.

Custom Orders

We are happy to fabricate custom sizes and shapes in foam, down cushions, pillows and mattresses if you don't see what you need in the catalog. Call for estimates and lead times. We do not take custom orders over the phone. Requests for custom work must be submitted in writing. No exceptions.

Please fax your custom work orders to 1 (866) 844-3626 **1 (866) 844-FOAM** or email them to sales@albanyfoam.com.

EZ-Dri

EZ-Dri polyether-polyurethane foam outdoor cushions dry almost immediately after exposure to rain, salt spray, melting snow, morning dew, washing, or other forms of moisture and humidity. Large, open pores permit maximum water drainage and air circulation, allowing use quickly after being wet or even saturated. With EZ-Dri outdoor cushioning materials you can offer your customers the best of both worlds – long lasting wear and comfort combined with extremely fast drying properties.

Consider these advantages for your outdoor recreational cushions – and your customers:

- **Sheds water like a sieve**, yet provides the seating comfort of a foam. Large, completely open pores (reticulation) permit rapid draining and maximum air circulation for fast drying.
- **Unique proprietary formulation** enhances strength and durability for long term exposure to sun and inclement weather.
- **Resistant to most chemicals** including most cleaning agents, solvents, alkalis, and acids (*bleach may cause rapid discoloration*). Built-in fungicidal additive inhibits fungus, mildew – important for retarding stain and odor.
- **Compound shapes for unusual cushion designs** may be easily fabricated. EZ-Dri cushions can be shaped the same as conventional foam.
- **Resilient, “springy” characteristics enhance comfort;** EZ-Dri cushions may also be lightly overwrapped with non-woven fiber padding for extra plushness. After wrapping, test cushions to ensure proper drainage. Adjust padding density as necessary. Pores should not be blocked with adhesive.

CUSTOM DOWN & FEATHER CUSHION DEPARTMENT

Our 25th Year

We can custom manufacture down & feather cushions to your specifications.

Our cushions are constructed using a high-grade 230-thread count down-proof ticking. All fabric panels in the cushion are the same hi-grade ticking. We do not use lesser grade fabrics on the parts that go unseen. The down & feather fill is completely contained in a ticking envelope that is baffled to keep the fill from shifting. The inner cores are protected from the down & feather fill and can be changed without disturbing the fill. All seams are turned in for a smooth finish.

Choose a foam core, spring core or all down & feather.

Choices of down and feather blend include:

- 25% down/75% feather
- 50%/50%, or
- 80% down/20% feather.

We can also fill cushions with:

- holoslick polyester fiber or
- fiber/down which is a blend of half holoslick fiber and half 25% down/75% feather.

Foam core: our most economical and popular cushion.

Spring core: Traditional springs are long lasting and resilient

All down & feather: (*no core*) our softest, plushest cushion, does need fluffing.

**Down and feathers in border is standard on cushions 4" border and thicker.*
